CTOP AND THINK.—IF YOU DON'T PURchase some of the following property, you will miss the chance of a lifetime.

Lansing, the Capital City of Michigan, has a population of over 20,000. It has over 1000 students and having a national reputation besides many other State Institutions with fine buildings and grounds; four trunk line railroads; one electric road, with several more headed this way; fine churches and schools; Carnegie Library costing \$35,000. It has one automobile factory employing 800 men, and several smaller ones, all of which will double their capacity within a year. In fact, Lansing is the center for the manufacture of automobiles and gasoline engines. The city is beautifully located at the confluence of the Grand and Cedar Rivers, is handsomely laid out, with straight, wide, shady streets, and is in fact an ideal city, with better prospects for future growth and development than any city of its size in Michigan. Notwithstanding all these advantages, real estate values are still down to hardpan and everybody is looking for sharp advances in the near future. Now is the time to invest.

\$15,900 will buy 65 acres inside the city limits. The Michigan Central R. R. runs through this tract, the Grand Trunk double track system along one end, and the Lake Shore within easy reach. Pennsylvania Ave., one of the finest streets in the city, runs along the east side of the land for 120 rods, and Mt. Hope Ave. for 80 rods on the south. It is an ideal tract for platting and for factory sites. Several large factories are located adjacent to this land. Within 60 rods E. Bement's Sons, the largest agricultural implement manufacturers in the State, have purchased 25 acres for a new factory site. Nothing in the city equals it, even at double the price asked for this. Don't delay, but write at once for particulars. We also have for sale 50 farms, at from \$30 to \$75 per acre, in Ingham and Eaton Counties, the richest farming section
